RACKS OF RIBS

6
EARS OF CORN

The Primo Junior packs every benefit of the patented oval shape into a compact grill made for tailgates, float trips and picnics. It offers 210 square inches of cooking area — 360 with the optional rack system, twice the cooking area of the next largest portable ceramic grill. There is room for 3 whole chickens, 4 racks of ribs or a small whole turkey at once.

Available as “grill only”, as an All-In-One with cradle and fold-down side tables (shown above), as the portable Primo GO with cradle and base, or with the Primo Cart with Basket, Compact Cypress Grill Table or Cradle.

**PULL UP A CHAIR —
THE FIRE'S ALREADY GOING.**

Why families choose Primo

Made in the USA

The only ceramic grill made in America — built in Poplar Bluff, Missouri. 4 out of 5 Americans prefer USA-made.

Grill, bake, roast or smoke

Works like a grill, an oven, a roaster and a smoker — from steaks to bread to brisket.

Patented oval design

Two true cooking zones — sear on one side while you roast low and slow on the other.

Amazing flavor

Ceramic plus 100% natural lump charcoal means juicier food and true wood-fired flavor.

GRILL DIMENSIONS · GRILL ONLY

Width, widest (at lid)	21"	53.34cm
Width at base	17.5"	44.45cm
Depth	16.25"	41.28cm
Lid height	10.25"	26.04cm
Base height	11.75"	29.85cm
Overall height, lid closed	21.5"	54.61cm

CLEARANCES

- 10" (25.40cm) of clearance is required behind the grill to open properly.
- A minimum of 2" (5.08cm) of clearance is required around the exterior surface of the grill.

BUILT-IN CUT-OUT

For island and outdoor-kitchen installations • grill head only • rear of grill at top

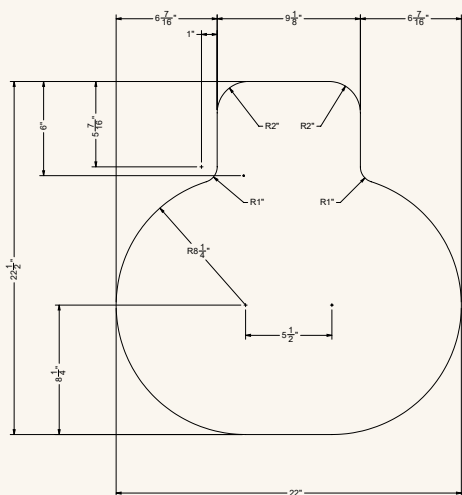

FIG. A Hinge-notch cut-out — plan view

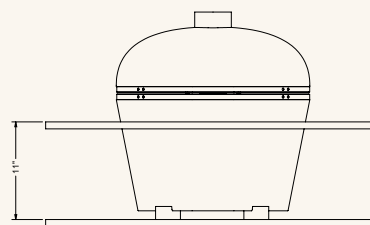

FIG. B Elevation — top surface to supporting shelf
Shelf depth 11" (27.94cm) below top surface

The hinge-notch cut-out is the only cut-out recommended for the Junior due to its reduced height. Shelf depth is measured from the top surface of the countertop down to the supporting shelf. Do not scale these drawings — confirm against the current cut-out templates and the grill on site before cutting.
