The Primo X-Large is our most popular ceramic grill, and no wonder. It offers 400 square inches of cooking area — 680 with the optional rack system — and the patented oval shape delivers exceptional cooking efficiency and true two-zone cooking. There is room for 8 whole chickens, 10 racks of ribs or 2 whole turkeys at once.

Available as “grill only”, as an All-In-One with cradle and fold-down side tables (shown above), or with the Primo Cart with Basket, Island Tops, Cypress Grill Tables or any of our other X-Large carts and tables.

Why families choose Primo

Made in the USA

The only ceramic grill made in America — built in Poplar Bluff, Missouri. 4 out of 5 Americans prefer USA-made.

Grill, bake, roast or smoke

Works like a grill, an oven, a roaster and a smoker — from steaks to bread to brisket.

Patented oval design

Two true cooking zones — sear on one side while you roast low and slow on the other.

Amazing flavor

Ceramic plus 100% natural lump charcoal means juicier food and true wood-fired flavor.

GRILL DIMENSIONS · GRILL ONLY

CLEARANCES

- 12" (30.48cm) of clearance is required behind the grill to open properly.
- A minimum of 2" (5.08cm) of clearance is required around the exterior surface of the grill.

BUILT-IN CUT-OUT

For island and outdoor-kitchen installations · grill head only · rear of grill at top

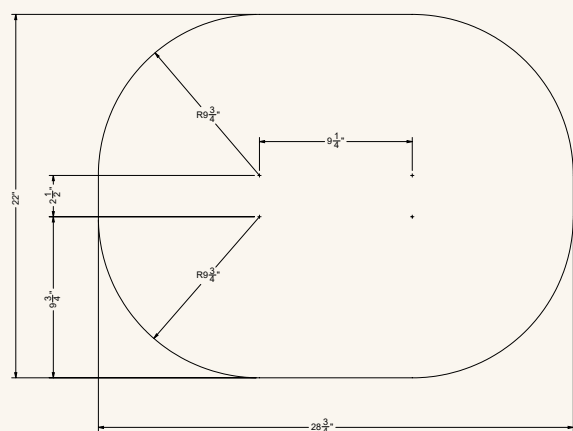

FIG. A Standard cut-out — plan view

Shelf depth 12" (30.48cm) below top surface

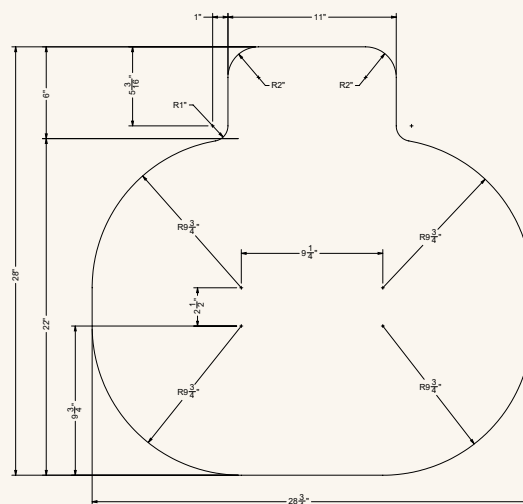

FIG. B Hinge-notch cut-out — plan view

Shelf depth 14" (35.56cm) below top surface

Two templates are available. To have the lip of the grill sit lower to the countertop surface, use the hinge-notch template — it needs a deeper supporting shelf. Shelf depth is measured from the top surface of the countertop down to the supporting shelf. Do not scale these drawings — confirm against the current cut-out templates and the grill on site before cutting.
